**Purpose of this Project**

The purpose of any animal project is to help teach youth valuable life skills. These are skills that youth need in order to transition into a healthy, responsible, contributing adult. Animal projects specifically target the life skills of:

- **Responsibility:** feeding and caring for an animal on a regular basis; completing assigned tasks
- **Determination:** working with the animal on a regular basis in order to show it
- **Record keeping:** keeping accurate records of the animal's health and feeding; recording information
- **Money/Resource Management:** keeping track of how much money or other resources have been invested in the project, and managing money and resources wisely
- **Sportsmanship:** practice being a good winner and a good loser through competition with peers and with self; dealing with constructive criticism, even when you've given your best

**“As the exhibitor of this project, I certify that I have personally kept records and completed this record book.”**

*Keeping records is an important part of any project, but especially for a market animal project. If you don't keep any records, then you have no idea whether you made money or lost money at the end of your project.*

## General Project Records

What is the breed of your steer? Why did you choose this breed?

When did you select your steer (what month)?

### Rate of Gain

Starting weight of animal on 10/7/17 initial weigh in \_\_\_\_\_

Ending weight of animal on 04/15/18 final weigh in \_\_\_\_\_

Total Pounds Gained (ending weight minus starting weight) \_\_\_\_\_

Total days on Feed (see rules provided by HCFAYLC.) \_\_\_\_\_

**Rate of Gain** (pounds gained divided by days on feed) \_\_\_\_\_

### Expenses and Income

An expense is something that you pay for, or that costs you money. Your project expenses include the cost or value of your animal at the beginning of the project, what you paid for feed, what you paid for veterinary bills, and what you paid to show your animal.

Income is money that your project brings you. Examples of project income include what your animal is worth at the end of your project (or what someone pays for your steer), any show premiums you win, and any sponsorships you are given.

**For record book purposes, your project begins at initial weigh in (October 7, 2017)**

## PROJECT EXPENSES

### Animal Expenses

What you paid for your steer OR the value of your steer if donated or self-raised.

1. If you bought your animal, simply write down the actual purchase price.
2. If you were given your steer, or if it was born on your property, simply write down the fair market value of your steer. (Not a constant price, do research!)

**TOTAL PROFIT OR LOSS**

- Calculated after the fair \$ \_\_\_\_\_

*Subtract your total project expenses from total project income.*

*This is your total profit or loss.*

**Project Story**

Your story should answer the following questions about your project experience and be a minimum of five paragraphs in length. Grammar, spelling, neatness, and details all matter.

- 1. What is the breed of your animal, and where did you get it?
- 2. What new skills did you learn from this project?
- 3. Who helped you with this project?
- 4. What did you like best or least about this project?
- 5. What would you do differently, if anything, next time?

Lined writing area for the project story. It consists of 30 horizontal lines spaced evenly down the page.

## Project Photos

Include **five to eight photos** of your project with **CAPTIONS** that tell the story within the picture. Exhibitors must capture at least three skills learned or improved during the project year. Show what you have learned or skills you have improved over the year.
